Re: *Ex parte* Notification - ET Docket No. 98-153  
Ultra-Wideband (UWB)

Dear Ms. Salas:

On January 23, 2001, Michal Freedhoff, Jeff Ross and Paul Withington of Time Domain Corporation (TDC), Richard Parlow, a consultant, David Hilliard and I from this law firm met with Dr. Michael Marcus, Julius Knapp, Karen Rackley, John Reed, Rodney Conway and Ron Chase of the Commission's Office of Engineering and Technology (OET) and with Raymond LaForge, David Means, and Kenneth Nichols of the FCC's OET Laboratory to discuss the process by which the FCC would solicit comment on the test reports entitled "Assessment of Compatibility Between Ultrawideband Devices and Selected Federal Systems," NTIA Special Publication 01-43, and "The Temporal and Spectral Characteristics of Ultrawideband Signals," NTIA Report 01-383.

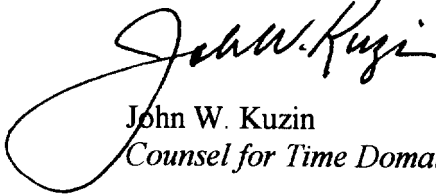

TDC stated that it will present a formal analysis in accordance with the comment schedule set forth by the Commission. TDC encouraged the OET personnel to continue their dialogue with NTIA personnel to better understand the issues and analysis presented in the NTIA reports.
